EXPERIENCE

Summer Trainee

Metacrafters

April 2024 - July 2024, Remote

- **Optimized Solidity smart contracts** for security and gas efficiency, reducing execution costs by **15%** and improving deployment reliability.
- Engineered blockchain applications using Solidity, Ethereum (EVM), Avalanche Subnets, and Avalanche HyperSDK, implementing **ERC-20** tokens and contract management.
- Presented technical code walkthroughs for mentor-reviewed blockchain projects, incorporating feedback to meet requirements.

PROJECTS

DevFlow – Developer Productivity Dashboard | React.js, Tailwind CSS, Axios, REST APIs, LocalStorage

Live demo • devflow-developer-productivity-dashboard.vercel.app/

- Designed a responsive developer productivity dashboard in React.js and Tailwind CSS with **6 reusable UI components** to improve maintainability.
- Implemented client-side data persistence with LocalStorage for tasks, notes, and focus time without a backend.
- Integrated **2 REST APIs** (OpenWeatherMap, GitHub) via Axios with browser notifications for Pomodoro session states.

Cosmic – Solar System Explorer App | Flutter, Firebase Authentication, Dart

GitHub • github.com/Aditya41150/Cosmic-App

- Built Firebase authentication and a glass morphism UI with **8+ features** including planet highlights, favorites, and profile management.
- Crafted smooth entrance and interaction animations using Flutter Animate for an enhanced user experience.

FareFinder – Smart Fare Comparison App | Flutter, Node.js, Express.js, Google Places API

GitHub • github.com/Aditya41150/Fare-Finder-Cabs-and-Bikes

- Architected a modular ride fare comparison system supporting **3 providers** via OSRM API distance estimation and configurable surge pricing.
- Implemented a RESTful backend in Node.js and Express.js with **6 endpoints** for fare estimation, booking, location search, details, distance, and health checks.
- Configured Google Places Autocomplete with **500ms** debounced search and robust error handling.

SKILLS

Programming Languages: C++, JavaScript, Python, Solidity, Dart

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Responsive Web Design

Backend: Node.js, Express.js, RESTful APIs, Firebase Authentication, JWT, bcrypt, MySQL, MongoDB, NoSQL, JSON

Mobile Development: Flutter

Developer Tools: Git, GitHub, VS Code, Android Studio, Postman, Axios

Core CS: Data Structures & Algorithms, Object-Oriented Programming (OOP), Operating Systems, Database Management Systems (DBMS), Computer Networks

EDUCATION

Bachelor of Engineering in Computer Science and Engineering

Chandigarh University • Mohali, Punjab • 2026

AWARDS & HONORS

Merit Based Scholarship

Metacrafters • 2024

- Awarded the \$175 Metacrafters Merit Scholarship (2024) for outstanding performance in Solidity and Web3 development coursework.

2nd Rank – "Triathlon" DSA Coding Competition

Computer Science and Engineering Dept. & Computer Society of India, Chandigarh University • 2024

- Secured 2nd position in Triathlon, a departmental DSA coding competition organized by the CSE Department and Computer Society of India at Chandigarh University.
